Traum Aid #496 Reclining Shower Commode

The ultimate in convenience for user or caregiver and built with high-grade stainless steel to address the problems that are caused from corrosion. We've split the back so the top portion removes allowing the caregiver easy access for transfers. Great feature for reduced back strain. 4-way seat slot can be used in any direction. Pad also removes for easy cleaning. Special need for padded seat configuration? Just ask! Lay-back arms. When the back reclines, the arms do also, and simply flip back out of the way for transfers.

Standard Features
250 lb weight capacity
Adjustable 2" velcro seat belt
Adjustable length leg rests
Adjustable head immobilizer
4-5" casters – Model 496-5
2-5" front casters, 2-24" Mag wheels- Model 496-24
Positive locking system for reclining back
Swing away or remove the elevating leg rests with single easy motion

Versatility: Add these design features to a rigid frame, and an open-style side frame for accessibility and you've got a genuinely versatile piece of equipment. It's extremely efficient in an institutional setting and user-friendly in a home setting.

Special Note: In our endeavor to serve we realize that most situations are special in one way or another. We have become proficient in our ability to customize many of our products. Our customer service and rehab engineering staff are available to discuss your special needs.
